

Abdominal USB Ultrasound Probe

AMD-5650

Ultrasound Technology Made Simple for Remote Clinical Exams

The *Abdominal USB Ultrasound Probe* is perfect for OB/GYN or other Internal Medicine examinations that require quick and easy access to high quality ultrasound images, in telemedicine applications. All you need is a laptop, tablet or desktop computer with a USB port and you will be able to save, send and print images taken with the probe.

Product Features:

- Completely portable and does not require an ultrasound machine.
- Images displayed real-time up to 15 frames per second.
- Outstanding image quality from fully digital B mode and 256 shades of gray scale.
- Sealed tight to eliminate dust and dirt contaminants and provide reliable imagery.
