

Multipurpose Camera & Scope powered by AGNES Connect™

Product Features:

- Automatically integrates with additional modules of AGNES Connect™ software to share medical images and live streaming video in real-time with the remote specialist.
- Direct USB connection allows you to immediately view the medical images on a PC (eliminates the need for an SD memory card).
- 2 mega pixel CMOS image sensor captures high definition (1920p x 1080p) medical images.
- Interchangeable lenses accommodate multiple medical specialties including primary care, ear/nose/throat, dermatology, and ophthalmology.
- Built-in white LED illumination provides a crisp light source for clear medical images with true color representation.
- Large rear-facing viewing screen makes it easy to see what you are “looking at” through the lenses.
