## OnDemand Visit™

### A Virtual Pathway to Care

*OnDemand Visit* is all-in-one direct-to-consumer telehealth platform that enables the highest level of quality and cost effective healthcare for your patients, regardless of where they are located. This enterprise-wide virtual care solution enables you to engage patients in a convenient way and expand your medical service offerings.

#### Patient Convenience:

- Easy access to preferred physician for non-emergent medical conditions.
- Convenient and secure medical consultations, with no travel required.
- Simple user interface with two-way video communication.
- More flexible scheduling than in-person visits.

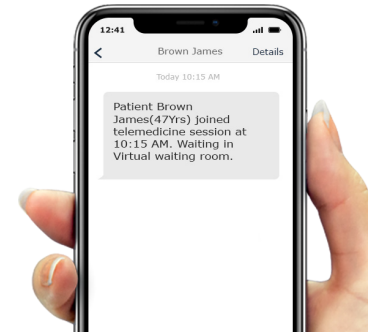

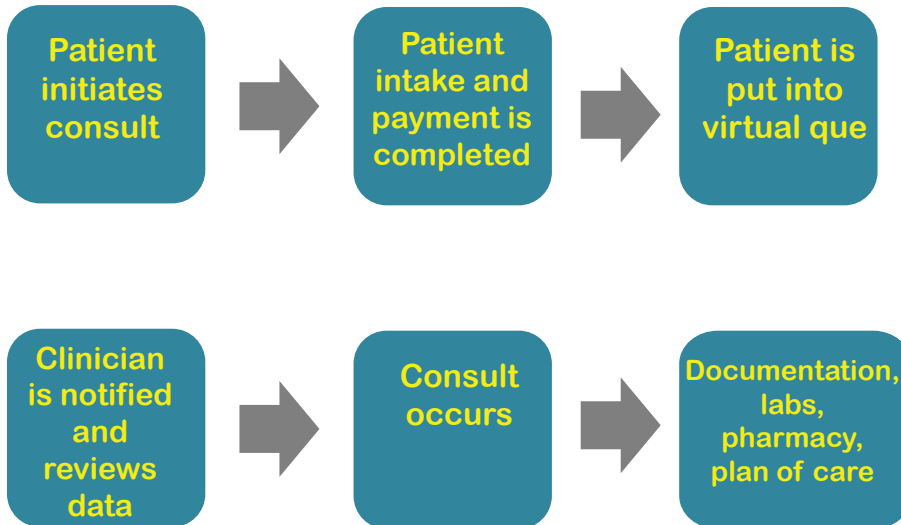

#### Provider Growth & Expansion:

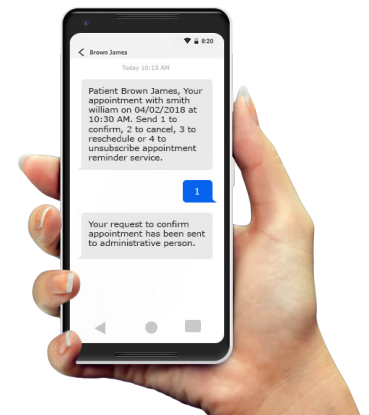

- Engage patients in a convenient way for capitated rates/ Global Fees/ACO's.
- Provide a low-cost acute care delivery model.
- Reduce unnecessary re-hospitalizations, costly ER or outpatient clinic visits.
- Increase patient satisfaction and strengthen patient loyalty.
- Spur demand for subsequent and/or ancillary services (labs, scans, pharmacy, etc).
- Reduce cancellation and no-show rates.
- Arm your organization with a competitive advantage over other facilities.
